

Jordan Searle

Front End Web Developer

Personal Statement

Creative web developer with strong digital design skills and a solid understanding of the web development process from initial UI design to launch.

In early 2016 I expanded my development skills with a coding bootcamp at Brainstation in Toronto, where I learnt full stack web Development tools and how to create powerful single page web apps Where I focussed on MongoDB, Node.js, Express, and AngularJS front end development methods.

Experience

Tweaked Digital, High Wycombe - Web developer

2012 - PRESENT

Creating websites, online video and digital designs for a wide customer base, freelance. I specialise in getting digital products made from ideas into reality.
